June 9 · 🌐

🚧 ODOT has announced the Smart Lane along I-275 Westbound between Loveland-Madeira Road and Reed Hartman Highway is scheduled to open Monday, June 10th. How it works:

- ✅ Staff in ODOT's Traffic Management Center will monitor traffic, and if traffic speeds fall below 55-mph, operators may open the SmartLane by changing the Digital Message Signs (DMS) and implementing a variable speed limit (VSL).
- ✅ Lane indicators on the DMS will be used to alert motorists if the SmartLane is open (green arrow), closed (red "X") or starting to close (yellow "X").
- ✅ Most typically, the SmartLane will be open during rush hours, from approximately 6 to 9 a.m. weekdays, and the speed within this section of the interstate will be reduced to 55-mph.
- ✅ Operators will continue to monitor traffic speeds throughout the rush-hour period and further reduce the VSL as needed. Any additional speed limit reductions will be made in 10-mph increments with a minimum of 60 seconds (one minute) given between each change.
- ✅ During normal (non-rush) hours, the left shoulder will remain closed, and the posted speed limit of 65-mph will remain in effect.
- ✅ The SmartLane can also be used during emergency situations, such as a crash, or scheduled construction and maintenance activities to facilitate traffic flow.
